

Activity Name: Stacking Cups

Instructions: For this activity you and your child will need plastic cups that you might have in your cupboards, if you do not have this type of cups you can use whatever you have as long as they are not using glass cups. Build different towers and creations using the cups. Talk about how tall or wide your structures are, count the cups as you build, and have fun!

Learning Objective: The activity will stimulate your child's fine motor skills, imagination on building towers, and counting as you count the cups as you stack! 7a, 11a, and 20a

Activity Name: Color Match

Instructions: For this activity you and your child will need to walk around your home and look for colored items such red, blue, yellow, and green. Gather them all together and help your child sort them by color. Assist if needed.

Learning Objective: This activity will assist your child in understanding the concept of color and begin sorting and classifying objects. (13)
