

Table Tape Play

Instructions: Put pieces of tape down on the table and allow your child to pull them up. If your child has trouble pulling the tape up, bend the ends of the tape under to create a tab for your child to grasp and pull.

Objectives: Uses Fingers and Hands (7a); Attends and Engages (11a)

Be sure to supervise your child during any activity

Toy Wash

Instructions: Using a flat tub or the bathtub fill with some warm soapy water and some submersible toys, sponges, washcloth, scrub brush. Allow your child to “wash” the toys. Talk with them about the toys having germs and how soap and warm water take germs away. Talk with them about what germs do to you as well as how they should wash their hands and when to prevent them from getting sick.

Objectives: This will build your child's fine motor strength allowing them to manipulate objects using fingers and hands. In addition by engaging with your child you will be building their vocabulary and communication. 1c, 2a, 3a, 7a, 8b, 9b, 25
